Service Delivery Regions

Note: Preliminary information was obtained through the Michigan Industry Cluster Approach (MICA). By September 2013, all 25 Michigan Works! Agencies reached a condition of "readiness" to commit to MICA. As of that date, the MICA team documented nearly 50 instances where MWAs had committed to local cluster groups spanning the entire state. Subsequent efforts have identified additional cluster groups/projects being convened or supported by MWAs and/or other talent stakeholders. This map incorporates the governor's Prosperity Regions.
